

CP-3000 Electronic Time Recorder Eliminates Time Card Overprinting

- Displays date, time, and day of the week
- Selectable imprint format: 2-digit year, month, day, date, hour (AM/PM or 0-23), minutes (regular, 10ths or 100ths)
- Automatic card feeding
- Automatic Daylight Saving Time adjustment
- Signal device (optional)
- 80 weekly program steps to activate specific features
- Perpetual calendar
- Two-color printing (optional)
- Full power reserve
- Staggered imprint from day to day

Amano Cincinnati's CP-3000 Series Electronic Time Recorder

is designed as a fully automatic time recorder which eliminates overprinting through the use of its mark sensing technology. Its optical sensor detects the previous mark, and time and date are consecutively printed vertically up the time card, making overprinting impossible. The unit offers an automatic perpetual calendar, is Y2K compliant and includes an automatic Daylight Saving Time adjustment. The system uses high-speed dot matrix printing with programmable formats, and comes equipped with a full power battery backup for full operation during AC power failures. Also provided is an adjustable card pocket for printing on most popular time cards, including standard Amano 68/6900 Series and Cincinnati 3000 Series cards. The unit is a fully functional electronic time recorder and offers up to 80 weekly program steps that you can use to activate specific features of the unit. For more information on how the CP-3000 Series can assist you with your time and attendance needs, please call today.
